REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art is "Ultrasonic Dispersion of Pigment in Water Based Paints", Journal of Coating Technology, June 1991, vol. 63, No. 767, pages 61-68. This reference fails to disclose or render obvious the steps of "cooling ... by receiving from the mixing reservoir at least a portion of the mixture within a heat exchanger of a cooling loop; urging the mixture from the heat exchanger to a valve of the cooling loop; diverting at least a portion of the mixture having a temperature within a desired temperature range from the valve to a storage container; and returning to the mixing reservoir any portion of the mixture not diverted" in combination with the remaining limitations of independent claim 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
